.NET MVC

Docker

GitHub Actions

GitHub

Oracle, SQL Server, MySQL, PostgreSQL

Experiences & Education

Working History

2015 - 2017
Desktop Applications

Water System, University System, Stock System

Developed desktop applications using Crystal Reports and SQL Server.

2018 - 2019
Mobile Applications

Flutter: WhatsApp with Firebase, Twitter with App Write

MAUI: Water System (Frontend), API: Water System (Backend) with RDLC Reports.

2019 - Present
Web Applications

Angular: Water System (Frontend), API: Water System (Backend)

Angular: Invoice System (Frontend), API: Invoice System (Backend).

2019 - Present
Web Applications

Angular: E-commerce System (Frontend), API: E-commerce System (Backend)

Angular: Chat Realtime Database (Frontend), API: Chat Realtime

Education History

2019 - 2023
Bachelor of Science In Cyber Security

National University

Until Level 3A&B
FIL Institute

Completed levels 3A and 3B

2018 - 2019
Safeer Private School

Secondary School | Final Result: 80.13

2020 - 2021
GENERAL TELECOMMUNICATION INSTITUTE

Programming & Maintenance of Smartphone Diploma

System (Backend).

2019 - Present
Web Applications

ASP.NET Core: ERP System with jQuery and JS

React and MobX: Activities App.

2019 - Present
Web Applications

React and Redux: MERN Stack E-commerce, NodeJS: Backend

VUE JS with .NET: ERP Water.

2019 - Present
General Management

Multi-language management, General permission management

Log management tools, Captcha, Cache data, Data dictionary.

2019 - Present
Outsourcing

Datatrans Company Outsourcing for Obeikan Digital Solution

Asp.net Core MVC Projects:
Nawras System
ANHAR System
Saned Service System
Improvements with jQuery and JS.

2019 - Present
Microservices

Dotnet Microservices with API Gateway using Docker and RabbitMQ

Project Modules: CRM
SanedAttendance
SanedServices
SanedCompliance
SanedLossIntelligence
SanedTalentAcquisition
SanedPerformanceManagement
Api gateway with other modules.
